

Juan Sebastian Camargo Prieto

Software Developer

Bogotá, Colombia | juansecapri@hotmail.com | +57 320 4773369 | <https://www.linkedin.com/in/juan-sebastian-camargo-prieto/> | <https://github.com/ImSebz>

PROFESSIONAL SUMMARY

Software Developer with skills and expertise in a range of programming languages and technologies, such as JavaScript, TypeScript, ReactJS, and web development frameworks and SEO best practices.

I also have experience with relational and non-relational databases and other current technologies. I thrive on exploring new topics and am highly capable of fulfilling specified requirements.

WORK EXPERIENCE

Iglu Marketing Digital

Full Stack Developer

December 2023 – October 2025

- Developed and maintained robust Full-Stack web applications for key clients including Budweiser, Stella Artois, Cerveza Corona, Newell Brands, Mobil, Terpel, and Coexitio.
- Managed the complete development lifecycle, implementing Backend and Frontend logic with Laravel, Livewire, and PHP, and designing MySQL database structures.
- Built dynamic and modern user interfaces using React and JavaScript to enhance user experience and platform interactivity.
- Developed, customized, and organized WordPress websites for clients such as Aerorental, Bull Marketing, and Iglu Marketing Digital, optimizing their performance, security, and adapting them to the specific needs of each project.
- Participated in the design and implementation of technical solutions to meet client requirements and specifications across various digital campaigns and projects.
- Contributed to full-stack development, with an initial focus on front-end development, for the creation of dynamic promotional campaigns for Budweiser.

Softgic

Software Development Internship

April 2021 – October 2021

- Collaborated on the Claro Giros project using JavaScript, jQuery, CSS, and HTML, focusing on delivering smooth user experiences.
- Collaborated with the team to implement features, optimize performance, and resolve issues
- Demonstrated strong problem-solving skills and effective communication to meet client expectations.

EDUCATION

Desarrollo Web Full Stack Front End + Back End

UdeCataluña

May 2025 – August 2025

Ingeniería de Software
